Remraam is a peaceful gated community located in Dubailand. Announced in 2007, its first phase Al Thamam was handed over in 2013. The developer of the area is Dubai Properties which is a subsidiary of Dubai Holdings. Remraam is an affordable apartment cluster, its second phase is under construction and completion is scheduled later in 2020. The area is located close to the Al Maktoum International Airport and the Expo 2020 site. The neighbourhood features low-rise buildings and properties in Remraam only include apartments available for both rent and sale.

Remraam Dubai is listed among the major freehold communities of Dubai. Early on, the area seemed cut-off from the main Dubai city but now there are many mega residential and commercial projects emerging as its neighbours. There are almost 198 buildings in the master plan, some of which are completed while some are still under construction.

Remraam community is divided into two large units, Al Ramth and Al Thamam. The area is purely residential and offers beautifully constructed spaces that include balconies and terrace, high-quality finishings and private green gardens. The residential apartments are available for rent and sale while there are no villas, commercial shops or offices in the area.
